“Go around and see what is being done and then see how your own circumstances can produce another version; there is need for diversity in this field”

Dame Cicely Saunders,
from Essentials for a Hospice, 1976

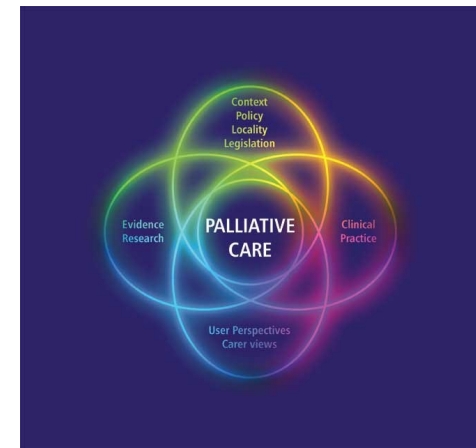

N.B. This day will be presented in English

From Vision to Practice

This is an invitation for colleagues from abroad to visit St Christopher's and to learn how the original vision and values of hospice care of Cicely Saunders have developed into cutting edge palliative end of life care services for the community in 2012.

St Christopher's has undergone substantial changes in the delivery of its services, developing its care, education and research programmes as a 'hub' for the communities it serves: local people, patients and professionals with an outreach, national and internationally.

There are several specific innovations in clinical care and organisation which will be presented on this day, including the transformation of home and day care practice, outcome measures, social, spiritual and psychological approaches and practice with children and families.

The day will include:

- Senior Clinical staff presenting latest thinking and innovations at St Christopher's.
- Tour of the Hospice and facilities.
- Community end of life care projects.
- Insights into the work of the Multi-Professional Team in delivering modern palliative care.
- Networking with colleagues from around the globe.
