Dear Colleagues, Dear Friends,

On behalf of the Board of EAPC, and as President, I am delighted to welcome you to our 16th World Congress in Palliative Care. As ever, this congress is two years in the planning and it has been my honour to work with a dedicated group of colleagues, who have worked tirelessly to bring this programme to fruition.

Berlin is an amazing choice of venue for our congress for many reasons. Everyone can find something to capture the imagination in this beautiful city. It resonates with history, diversity and vibrancy but most of all, with life. And that, of course, is a key message for palliative care. We who work in this field are as much about life as death, supporting patients and families to live and live well until the end. So, as the people of Berlin, we should embrace life and savour every moment that this congress and this city will offer us over the next few days.

The 16th World Congress focus on global health is a strong message that EAPC is a world player in the development and practice of palliative care. We have a voice which echoes the interface between clinical, research and policy engagement. We represent a critical perspective in national and international understanding of palliative care and showcase our work through this congress and that of the EAPC Research Network (don’t forget Palermo 2020!). Please take time to sit and listen, debate and reflect on the important issues to be discussed here at congress. Your views are important and help us to shape our EAPC thinking on the way forward.

I am also delighted that for the first time, we will have a parallel day on children’s palliative care, ably organised by our CEO, Dr. Julie Ling. We expect over 700 delegates will attend this event, a remarkable achievement and one which heralds a new strand in our congress material which I hope will continue in future years.

There are many people to thank for this event. Our Co-Chairs, Dr. Sébastien Moine and PD Dr. Anne Letsch, who was also leading the local organising committee, our debt of thanks for the hard work and long hours. Thanks also to the members of the Scientific Committee and Local Organising Committee who have provided the ideas and proposals which shape the 2019 congress. Your support is, as always, much appreciated. We cannot forget our Conference Partner, Interplan and Elke Jaskiola in particular for organizing us and keeping us to task. Of course, my personal thanks to EAPC Head Office, Julie, Eleanor, Cathy and Avril for the logistics, organization and managing all the other EAPC demands at the same time as bringing a world congress together. I would also like to give sincerely thanks to our colleague Claudia Sütfeld our congress administrator who has worked tirelessly to ensure that everything runs smoothly.

Finally, I wish to thank our German friends and colleagues for welcoming us to Berlin and for agreeing to host this congress.
EAPC President’s Welcome

Liebe Freunde,

die Wahl des Landes und des Tagungsorts für einen EAPC-Kongress ist immer eine Herausforderung. Diesmal allerdings fiel es uns wirklich leicht, denn Sie haben uns überaus herzlich willkommen geheißen. Im Namen des EAPC-Vorstands danken wir der Deutschen Gesellschaft für Palliativmedizin für alles, was sie in den letzten zwei Jahren geleistet hat.

So, I wish you a wonderful congress, time to meet old friends and make new ones and opportunities for creativity and relaxation when you can. Welcome to Berlin 2019.

Professor Philip J Larkin
President, European Association for Palliative Care
Dear Congress Participant,

It is a pleasure to welcome you to the 16th World Congress of the EAPC in Berlin. As questions are asked related to equitable access to palliative care in Europe and around the world, the congress “Global Palliative Care – Shaping the future” will explore how palliative care fits with the current global health agenda. You will be at the core of the discussions and events, which aim to address the emerging challenges and opportunities our discipline will face in policy, research and clinical practice.

Five years on from the adoption of the World Health Assembly Resolution on Palliative Care, the EAPC World Congress is the perfect time to reflect on our progress in the development of palliative care globally and to identify areas where more needs to be done. Our congress takes place shortly after the 2018 adoption of the new Declaration of Astana which highlights palliative care as one of the key components of primary health care, after the United Nations High Level Meeting on non-communicable diseases and before the United Nations High Level Meeting on universal health coverage which will take place in New York in September 2019. The successes of palliative care now transcend its usual boundaries and the work of building bridges toward new landscapes is now deeply rooted in its DNA. Berlin provides you with the opportunity to examine the extent to which palliative care has been included in universal health coverage (UHC) and within our various health systems.

The increasing recognition of the importance of palliative care in society is reflected in the growing number of EAPC congress delegates who represent a range of disciplines from many countries throughout Europe and beyond. The EAPC World Congress provides a unique opportunity to network and meet with colleagues, clinicians, caregivers, researchers, volunteers, patients advocates and educators in palliative care from across the globe. You will exchange knowledge with champions and enthusiasts to celebrate diversity and richness, make new links, new collaborations and develop projects during the time spent together. We are expecting more than 3000 participants to attend the congress.

Berlin is the capital of Germany and the major centre for politics, science, culture and art. Like Palliative Care, Berlin is dynamic, colourful and diverse and honoured and delighted to host the EAPC World Congress.

On behalf of all involved in EAPC 2019, we welcome you to Berlin and the 16th World Congress of the European Association for Palliative Care.

Certification
The 16th World Congress of the European Association for Palliative Care has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME) to provide the following CME activity for medical specialists.

EACCME credits
Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity. The EACCME credit system is based on 1 ECMEC per hour with a maximum of 3 ECMECs for half a day and 6 ECMECs for a full-day event.
General Information

The EACCME is an institution of the European Union of Medical Specialists (UEMS): www.uems.net

American Medical Association (AMA)
Through an agreement between the European Union of Medical Specialists and the American Medical Association, physicians may convert EACCME credits to an equivalent number of AMA PRA Category I Credits™. Information on the process to convert EACCME credit to AMA credit can be found at www.ama-assn.org/go/internationalcme

Royal College of Physicians and Surgeons of Canada
Live educational activities, occurring outside of Canada, recognized by the UEMS-EACCME for ECMEC credits are deemed to be Accredited Group Learning Activities (Section I) as defined by the Maintenance of Certification Program of The Royal College of Physicians and Surgeons of Canada. For more information, visit www.royalcollege.ca

Accreditation for Doctors registered in Germany
All delegates registered with a German Medical Chamber can claim their CME credits at the delegate service desk as follows:
- scan their personal EFN number barcode once a day
- collect official signature and stamp for the certificate of attendance on a daily basis

The following CME credits will be accredited:
- 6 credits for the 23 May 2019
- 6 credits for the 24 May 2019
- 3 credits for the 25 May 2019

Certificate of Attendance
After the congress, participating delegates will receive a CME/CPD Certificate of Attendance by e-mail after completing the educational evaluation. We thank you for your feedback as it is an important part of the CME/CPD accreditation process and helps improve future educational offerings. All evaluation responses are anonymous.

Information on Posters

Time schedule
The posters will be organised in two sets. The email you received states in which set your poster will be presented. Please also check online at: www.eapc-2019.org

Poster Set 1
Set up: Thursday 23 May 2019, 08.00 – 09.00
Removal: Thursday 23 May 2019, 18.00 – 19.00

Poster Set 2
Set up: Friday 24 May 2019, 08.00 – 09.00
Removal: Friday 24 May 2019, 18.00 – 19.00

Please make sure you remove your poster during the removal time indicated above. Posters that have not been removed in time will be destroyed.

The presence of authors at their posters
Authors are asked to be at their posters during both coffee breaks (morning and afternoon) to allow delegates visit and discuss the work.

Poster Awards
The awards for the 3 best posters will be presented during the Closing Ceremony on 25 May.

Best abstracts per topic
The 3 best abstracts (as judged by a scientific committee panel) in each of the 30 submission categories will be marked with a ribbon.

e-Posters
Due to the high number of poster presentations, the EAPC has decided to make all posters available in a digital format. All uploaded electronic posters will be available to all delegates on three e-Poster Stations at the “Rotunde” on all three congress days.
EAPC Poster Awards

The poster exhibition provides the opportunity to share the many dimensions of palliative care and is one of the essential features of all EAPC congresses. Poster abstracts are selected from all healthcare disciplines and represent a wide range of topics and palliative care issues from around the world. The poster exhibition offers a platform to meet and discuss challenges, achievements, ideas and developments in palliative care with colleagues and other stakeholders.

For this congress, we received more than 1400 abstracts from across the globe. All abstracts were blinded and independently reviewed and scored by three different experts in the field of palliative care. The Scientific Committee reviewed the abstracts and scores, and selected those for inclusion in the congress programme. Many of the abstracts submitted in the “poster only” category scored as highly or higher than some of those submitted for oral/poster presentation. This is testament to the quality work which is being undertaken in palliative care globally.

In total, there was a choice of 36 abstract categories which authors could select during the abstract submission process. The three highest scoring abstracts in each of these 36 categories will be identifiable during the congress, as each will be marked with a ribbon.

The Scientific Committee will select the winners of the Poster Awards during the congress by reviewing the twenty five posters with the highest scoring abstracts. The Poster Awards will be presented to the winners during the Closing Ceremony on 25 May.
The EAPC is pleased to announce the outcome of the ‘Researcher Award’ competition for 2019. The winner of the Early Researcher Award is Dr Maria Heckel (Germany). The Post-Doctoral Award goes to Geana Paula Kurita (Denmark). Dr Mark Taubert (United Kingdom) is the winner of the Clinical Impact Award.

The standard of applications was very high, with a small group of outstanding candidates. Applications were assessed on the published criteria; namely evidence of sustained engagement with research in palliative care, evidence of the ability to successfully apply for grants, an increasing portfolio of published research papers and other factors that indicate international esteem. The accompanying statements of support were also scrutinised.

The panel are delighted that there are so many excellent emerging researchers who will contribute to the future development of palliative care research and practice.

All three award winners are going to give a plenary lecture on Friday, 24 May, 14:30 – 16:00 in the plenary hall.

Early Researcher Award – Dr Maria Heckel

Maria Heckel qualified as a social worker and was awarded the Gertrud-Luckner-Preis for her diploma thesis “Home-from-Home. Hospitality for people with dementia. An innovative concept from Scotland” in 2010. She worked as a social worker in a nursing home, in a hospital and with a specialized inpatient palliative care service team. Maria holds a doctoral degree in nursing sciences from the Private Universität für Gesundheitswissenschaften, Medizinische Informatik und Technik, Hall in Tirol, Austria. In her doctoral thesis she explored the significance of smell and taste in the course of life following a resource-oriented approach. She is actively involved in palliative care research and teaching since 2012 and is currently head of the research team at the Department of Palliative Medicine at the University Hospital Erlangen, Germany. Her focus is on health services research.

Maria has a strong interest in investigating the needs of people at their end of life and their families. She investigates the different perspectives on the quality of end-of-life care. One of her major publications is about the German validation study of the quality of dying and death questionnaire (QoDD) for informal caregivers, funded by German Cancer Aid. The study was performed in cooperation with the Department of Palliative Medicine at the University Medical Center of the Johannes Gutenberg-University, Mainz, Germany. With the same working group, she recently finished a validation study funded by the German Research Foundation of the Care of the Dying Evaluation (CODE) questionnaire that assesses the quality of care of patients in their last days of life. In an awarded project on dealing with multidrug-resistant bacterial microorganisms in end-of-life care, funded by the German Ministry of Education and Research in the years 2014 to 2016, her research group succeeded in developing national recommendations. The recommendations were provided via the German Association for Palliative Medicine to transfer research findings directly back into practice and to verify their usefulness and coherence in clinical care.

Maria appreciates the interactions with patients, their families, clinical staff, the public and researchers with various professional backgrounds to identify areas of improvement of health services and to develop new strategies to enhance the quality of end-of-life care.
Post-Doctoral Award – Geana Paula Kurita

Research graduate in Nursing and Obstetrics at the University of Sao Paulo, Brazil. Post-graduated as a Master of Science, PhD, and post-doctoral fellow. Dr. Kurita has enhanced skills in pain treatment, cognitive assessment, and symptom control in palliative care patients. Her primary area of research expertise is the complex interaction between pain and opioids and the roles they may play in producing cognitive impairment. Currently she is a Senior Researcher at Rigshospitalet Copenhagen University Hospital (Denmark) and is engaged in several international collaborations.

1. Education
2010 Post-Doctorate – University of Sao Paulo, Brazil
2006 Doctorate (Ph.D.) – School of Nursing, University of Sao Paulo, Brazil
2001 Master of Science – School of Nursing of University of Sao Paulo, Brazil
1997 Teaching in Nursing – Faculty of Education, University of Sao Paulo, Brazil
1996 Baccalaureate of Science in Nursing, University of Sao Paulo - Brazil

2. Experience
Mar 2013 – present Senior Researcher – Section of Palliative Medicine/Oncology Department and Multidisciplinary Pain Centre, Rigshospitalet, Denmark
Nov 2007 – Feb 2013 Research fellow – Section of Palliative Medicine and Multidisciplinary Pain Centre, Rigshospitalet, Denmark
2003 – 2006 Research fellow – Coordenação de Aperfeiçoamento de Pessoal de Nível Superior, Brazil
1997 – 1998 Nurse - Clinics Hospital, Medical School of University of Sao Paulo, Brazil

3. Research themes
Effects of opioids on cognitive function of patients with chronic cancer pain and chronic non-cancer pain
Symptom management in cancer patients and palliative care
Research methods
Systematic reviews

4. Scientific and academic activities
Ad-hoc reviewer for Brazilian governmental research agencies and international journals on health area
Supervisor for Master and PhD students
Abstract reviewer for EAPC congresses
Collaborator in multicentre studies in Denmark, Brazil and projects of the European Association of Palliative Care (EAPC)
Vice-chair of EAPC Research Network
Clinical Impact Award – Dr Mark Taubert

Mark is a palliative care consultant and senior lecturer in Cardiff. He grew up in Hessen in Germany and settled in Wales, the land of song, in 2004. Apart from working as a hospital physician, he is also a member of the Welsh End of Life Care Board, clinical lead for the coalition Byw Nawr/Live Now and is the national strategic lead for Advance & Future Care Planning in Wales. He is a teaching faculty member for Harvard Medical School’s Global Clinical Scholars Research Training (GCSRT) programme, and on the editorial board for BMJ Supportive & Palliative Care. He works closely on projects with the Marie Curie Palliative Care Research Centre (MCPCRC) at Cardiff University.

His research interests lie in novel ways of facilitating discussions between patients and healthcare professionals, in particular the use of new media like Twitter and YouTube. Mark created the TalkCPR website, YouTube videos and app, allowing patients to find out more about complex advance and future care planning decisions in particular resuscitation in palliative illness. He has also given a Ted Talk on palliative care. He writes regularly for international newspapers and web based media outlets, and is passionate about making palliative care more relatable and understandable. He has published widely in academic journals on the topic of palliative social media.

In 2016 he had a brief brush with fame, when his posthumous letter to David Bowie, which covers the components of good end of life care, went viral on the internet and in global newsrooms. The letter has since been made into a classical music composition which was aired on BBC Radio 3, and has been publicly read out by public figures in locations including New York, London, Hay-on-Wye and Berlin.

Mark took part in a BBC Horizon programme on Palliative Care alongside the science presenter Kevin Fong, and has also done extensive media work with the BBC and ITV.

On occasion, he acts as an adviser for a Welsh TV soap opera, on matters medical, end of life and palliative, and has thus far choreographed the deaths of two of the programme’s main characters. But please don’t tell anyone.

Travel Grants

The International Association for Hospice and Palliative Care (IAHPC) and the European Association for Palliative Care (EAPC) are pleased to announce the winners of this year’s IAHPC Traveling Scholarships, to support their travel to the 16th World Congress of the European Association for Palliative Care (EAPC) in Berlin, Germany, 23 – 25 May 2019.

As per the criteria for applications, all grantees are active member of IAHPC, working actively in palliative care and are registered web users of the EAPC database. Preference was given to individuals who work in countries that are classified as lower, lower-middle or upper-middle income categories.

Numerous were received from a wide range of countries, background and professions, including physicians, nurses, psychologists and other disciplines. The committee was pleased with the high quality of applications and would like to thank all those who applied, for their interest in both the IAHPC and EAPC World Congress.

The final list of the 20 grantees selected by IAHPC and EAPC are:

Instruction for Speakers

Please use a short Powerpoint presentation for your talk. There will be a Media Check in room Straßburg where you can upload the file. **This file must be delivered to the technical staff at the Media Check room at least two hours before the start of your session.** Presenters are encouraged to bring electronic backup copies. Please note that the organising committee is not responsible for damaged files or unreadable files or formats.

Also, please note that it is not possible to upload your presentation directly in the plenary hall or to use your own laptop. All presentations have to be checked and uploaded at the Media Check room. Our competent technical staff will be at your disposal. Any exemptions have been communicated with the technical speaker information.

The facilities in the Media Check will provide the possibility of:

- reviewing your PowerPoint presentation
- last minute changes of your PowerPoint presentation
- support by technical staff
- uploading your PowerPoint presentation for the assigned session / room

Travel Information

How to get to Estrel Congress Center Berlin

By Bus
Arriving from the Berlin Central Station (Hauptbahnhof), please take the bus line M41 until you reach the „Ziegstraße“ stop. It takes about 40 minutes by public transport. If you take a taxi, it is about 20 minutes and roughly 20,00 EUR.

By Metro
Arriving via Südkreuz Station, please take the S42 S-Bahn commuter train line (Ringbahn) until you reach the “Sonnenallee” stop. From here, it is only a 4 minutes’ walk to the Estrel. All in all it is about 10 minutes by public transport.

Arriving via Ostbahnhof, take either one of the S5, S75 or S9 S-Bahn commuter train lines until you reach the „Ostkreuz“ station. Then transfer to the S41 S-Bahn line (Ringbahn) and continue until you reach the „Sonnenallee“ stop. It is about 15 minutes by public transport.

To reach the Estrel using Berlin’s public transport facilities, you will require a single journey ticket for the AB zone costing 2.80 euros (Exception: Please note that when travelling from the Berlin-Schönefeld Airport SXF, you will require an ABC zone ticket costing 3.40 euros). You can purchase tickets at the BVG service counters, the BVG ticket vending machines located in the S-Bahn and U-Bahn stations or on busses directly from the driver (please have change ready for bus drivers)

By Car
From the West / South
When approaching Berlin from the A2 or A9 autobahns, switch on to the A10 / Berliner Ring, then onto the A115 and afterwards onto the A100 in the direction Wilmersdorf / Kurfürstendamm / Flughafen Schönefeld. Take exit 26 “Grenzallee” and follow the construction detour signs that will take you via Bergiusstraße, Haberstraße and Neuköllnische Allee and bring you onto Grenzallee. At the traffic light intersection that follows, turn left on Sonnenallee. After approximately 500 meters, the Estrel is on the right hand side.

From the North
Take the A24 Dreieck Havelland interchange onto A10 / Berliner Ring toward Berlin, then change onto the A111 autobahn in the direction Flughafen Tegel / Berlin-Zentrum / Berlin-Reinickendorf. Shortly afterwards take the A100 autobahn. Take exit 26 “Grenzallee” and follow the construction detour signs that will take you via Bergiusstraße, Haberstraße and Neuköllnische Allee and bring you onto Grenzallee. At the traffic light intersection that follows, turn left on Sonnenallee. After approximately 500 meters, the Estrel is on the right hand side.

From the East
When approaching Berlin from the A13 or A12 / A10 autobahns, take the „Schönefelder Kreuz“ interchange onto the A113 toward Berlin-Zentrum. Take exit 26 “Grenzallee” and follow the construction detour signs that will take you via Bergiusstraße, Haberstraße and Neuköllnische Allee and bring you onto Grenzallee. At the traffic light intersection that follows, turn left on Sonnenallee. After approximately 500 meters, the Estrel is on the right hand side.
